# EDITORIAL GUIDE TO THE AUTHORS

## Guide for Authors

Starting from March first 2020 those are the new guide lines for the authors who want to submit articles on any aspect of plastic surgery, in the Egyptian Journal of Plastic and Reconstructive Surgery. As from now the Journal is a double blind peer reviewers journal. Submission should be carried online via the new site of the journal <https://ejprs.journals.ekb.eg>. Register and go to Article submission and fill the required information.

## Manuscripts Preparation

The author should submit the original manuscript. The language used for publication is the English language in common usage. It must be clear, accurate and coherent, and spelling checked. Manuscripts must be typewritten, double spaced, on one side only, on 8.5 x 11 inches (22 x 28 cm) white paper, with 4 cm margins at the left, top and bottom and 2.5 cm margin at the right. All copies must be double spaced, including text, title, footnotes, bibliography, legends, tables and headings. The title page should carry the full title of the article, followed by the author's name(s) in full, degrees, and principal affiliations of each author. A page, with the name and address of the principal author and when and where, was the paper presented. An abstract of the content, on a separate page, should precede every original article. It should not exceed 350 words and Key words from 2-5. It should be self-contained and informative without referring to the text (the problem investigated, the method used, the results obtained and the conclusions reached).

The reference must be typed on separate pages and must be cited in the text in numerical order, not alphabetically according to "Vancouver System".

References to journal articles should include (1) authors(s), (2) title. (3) journal name as abbrevi-

ated in Index Medicus, (4) volume number, (5) the first-page number and (6) year of publication in that order. References to books should include (1) author(s), (2) chapter title (if any), (3) editor (if any), (4) book title, (5) city of publication, (6) publisher and (7) year of publication. Volume and edition numbers, specific pages, and names of translator should be included when appropriate. Methods of statistical analysis when done should be mentioned before the results. If more complicated procedures are used they should be referenced as well. Subject your articles for plagiarism, to avoid rejection if it exceeds 25% and will be rechecked.

## Legends and Figures

Legends for illustrations should be typed double spaced on separate pages. Legends for photomicrographs should specify the stain and degree of magnification. Photographs should be submitted sharp focused, good contrasted in black and white.

All figures and photographs should be sent unmounted. Figure numbers and legends should be sent under the corresponding item. Before and after photographs of patients must be identical in terms of size, position and lighting. Coloured photographs can be considered for publication at the expense of the author. Radiographs. C.T. Scan etc. should be presented as prints and not negatives. All tables and illustrations should be referred to in the text.

Once received the articles will be submitted for double blind peer reviewers. Once the reviewer decision are received you will be notified by the decision; accepted with or without revision rejected, need changes etc.. Look to Peer Reviewer Process. If the articles is finally accepted you will be notified to bring the original manuscript and one copy, with two sets of illustrations and retain one complete copy, with the specifications mentioned above to the Editorial Secretary, by a set appointment to:
