THE INSTITUTE OF NATIONAL PLANNING

Memo. No. 335

LIST OF PUBLICATIONS ISSUED
BY THE I.N.P.C.

Prepared By
The Technical Office

1st June 1963

NOTE

The Institute of National Planning has adopted a temporary policy of publication. Documents of varied nature and level are reproduced in a semi-permanent form for limited circulation, within the U.A.R. and outside. Such documents include research reports, teaching material, conference papers and current reports. They all refer to the (activities) of the Institute, its trainees and its staff members. In certain cases, reprints are arranged for material published elsewhere, with due acknowledgment of the source.

No attempt is made at this early stage of the evolution of the Institute, to harmonise the standard and level of publication. But the aim is to represent in a real and simple way what is going on.

At a later date a more elaborate and formal policy will be established.

It is quiet gratifying to notice that, within less than three years, the Institute thanks to the efforts of its staff and collaborators, has been able to put out this large collection of memoranda.
