**Indicators toward an Digital Online Social Work Curricula,
research and field work practice**

إعداد

Prof.Dr.

Mohamed Mahmoud Ibrahim Ewiess

Professor of Social Planning

2025

General Outline

(school social work)

First : Why ?

- 1- We as a social work educators have no other choice , it is a universal approach to meet the accelerating education programs and techniques
- 2- To avoid the risk factors that threatening the current education processes
- 3- We should follow the original philosophy of social work profession which concentrate on the goal of (Treat in exchange environment of care)

Second : How?

There are two main types of digital school social work programs :

Creator programs #Detector programs

1- : Creator programs

These programs are our responsibility as experts in the processes social work education (course contents – exercises - fieldwork training plan and techniques ..etc)

2- : Detector Programs

These programs are in need of e-learning experts , they have the ability to transfer our creator programs to detect contents in a way to be applicable to the current environment of education in Egypt and all over the world.

These are best of which like (electronic display – bringing into mutual relation among various contents – linking options to preferred objectives, functions and targets – running icons – automate the evaluation of all the learning process .. etc)

Third : What we need

- 1- To acknowledge that we - as SW educators have the ability to only create , innovate , manage and do all the steps of traditional processes of learning with a mere change of shape of contents or evaluation .
- 2- Assigning a specialized e-learning company, saving money and providing willpower to innovate real online educational SW programs.

Example\\ let us shed a light on one of the important fields :

School Social work

Online Social Work Curricula

(contents and objectives)
